

STUDENT EXCHANGE IN ITALY

PLAYING FOR EMOTIONS

(Igranje s čustvi)

(24th – 28th October, 2022)

Our group of 10 students, two accompanying teachers and four additional teachers started our journey to Italy by plane on 23rd October, 2022 from Ronchi airport near Trieste to Rome, continued by train to Naples, then by van and arrived in the city of Sant'Agata de'Goti late in the evening. We were accommodated in the private hotel Le Rocce, a ten-minute walk to the host school ISTITUTO DI ISTRUZIONE SUPERIORE "DE LIGUORI" SANT'AGATA DEI GOTI.

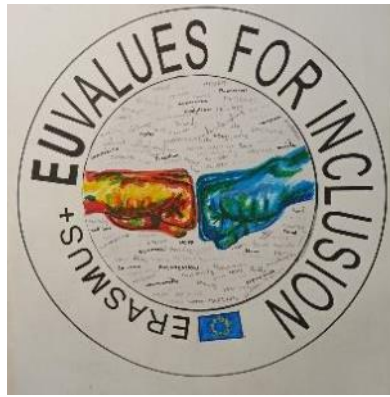

After a friendly reception for all foreign guests by the headteacher, the Italian coordinator and a program prepared by the students of the school in the main hall the following morning, and a joint photo, the Italian students took us on a tour of the city. As the main school building was being renovated, all activities were carried out at one of the branch schools at another location.

We started the meeting with cognitive activities, two of which were particularly interesting for the students - the game with a string of wool, which they passed to each other based on their common interests, and the Who's who? activity where they had to guess the identity of a student based on a given description.

The mobility in Italy included quite a few activities that evoked emotions. An interesting one took place during the visit to the small town of Benevento, where they had to take photos of interesting things around them that evoked emotions or affected their feelings while walking through the city. After returning to school, they reviewed the photos in mixed nationality groups, selected the five best ones, and together made [a collage of emotions](#). In another activity each group of students had to choose five words and an emotion, from which they had to create and present a short sketch illustrating the chosen emotion. The students found the 'birds' activity most interesting. They watched the short cartoon [FUNNY BIRDS](#), but not all the way through. In groups, they had to come up with their own endings, describe it and perform it on stage. Emotions were also depicted in animated films created by each group of students. In addition to joint activities, students and teachers saw the sights of Naples, tried Napolitan pizza and relaxed with their newly found friends. We ended the exchange with a joint dinner, dancing and a beautiful cake dedicated to our project, with the winning project logo in the middle by our former student Sofia.

We flew home from Naples on Saturday, October 29th, to Trieste, where our students' parents and other relatives were waiting for us.

IZMENJAVA UČENCEV V ITALIJI

PLAYING FOR EMOTIONS

(Igranje s čustvi)

(24th – 28th October, 2022)

Naša skupina 10 učencev, dveh spremljevalk in dveh dodatnih učiteljev ter šolske računovodkinje je pot v Italijo začela z letalom 23. oktobra 2022 z letališča Ronchi pri Trstu do Rima, od tam nadaljevala pot z vlakom do Neaplja, nato s kombijem in prispela v mesto Sant' Agata de'Goti pozno zvečer. Nastanjeni smo bili v zasebnem hotelu Le Rocce, deset minut hoje do šole gostiteljice ISTITUTO DI ISTRUZIONE SUPERIORE "DE LIGUORI" SANT'AGATA DEI GOTI.

Po prijaznem sprejemu za vse tuje goste s strani ravnateljice, italijanskega koordinatorja in programu, ki so ga naslednje jutro pripravili učenci šole v glavni avli ter skupni fotografiji, so nas italijanski dijaki popeljali na ogled mesta. Ker je bila glavna šolska stavba v obnovi, so se vse dejavnosti izvajale na eni od podružničnih šol na drugi lokaciji. Srečanje smo začeli s spoznavnimi dejavnostmi, od katerih sta bili za učence še posebej zanimivi dve – igra z vrvico volne, ki so si jo podajali glede na skupne interese, in igra Kdo je kdo?, dejavnost, kjer so morali na podlagi

podanega opisa uganiti identiteto učenca. Mobilnost v Italiji je vključevala kar nekaj aktivnosti, ki so vzbujale čustva. Zanimiva aktivnost se je odvijala med obiskom mesteca Benevento, kjer so morali učenci med sprehodom skozi mesto fotografirati zanimivosti, ki so vzbujale čustva ali vplivale na njihove občutke. Po vrnitvi v šolo so v mešanih narodnostnih skupinah pregledali fotografije, izbrali pet najboljših in skupaj naredili [kolaž čustev](#). V drugi dejavnosti je morala vsaka skupina učencev izbrati pet besed in čustvo, iz katerih je morala ustvariti in predstaviti kratko skico, ki je ponazarjala izbrano čustvo. Učencem je bila najbolj zanimiva dejavnost o pticah. Ogledali so si kratko risanko [FUNNY BIRDS](#), vendar ne do konca. V skupinah so si morali izmisliti svoje zaključke filma, jih opisati in izvesti na odru. Čustva so bila prikazana tudi v animiranih filmih, ki jih je ustvarila vsaka skupina učencev. Poleg skupnih aktivnosti so si učenci in učitelji ogledali znamenitosti Neaplja, poskusili napolitansko pico in se sprostiti z novimi prijatelji. Izmenjavo smo zaključili s skupno večerjo, plesom in čudovito torto, posvečeno našemu projektu, z projektnim logotipom na sredi, delo naše bivše učenke, Sofije. Iz Neaplja smo v soboto, 29. oktobra, odleteli proti Trstu, kjer so nas pričakali starši in drugi sorodniki.
